

ICoE REaL (Risk Education and Learning) 23 May, 2017

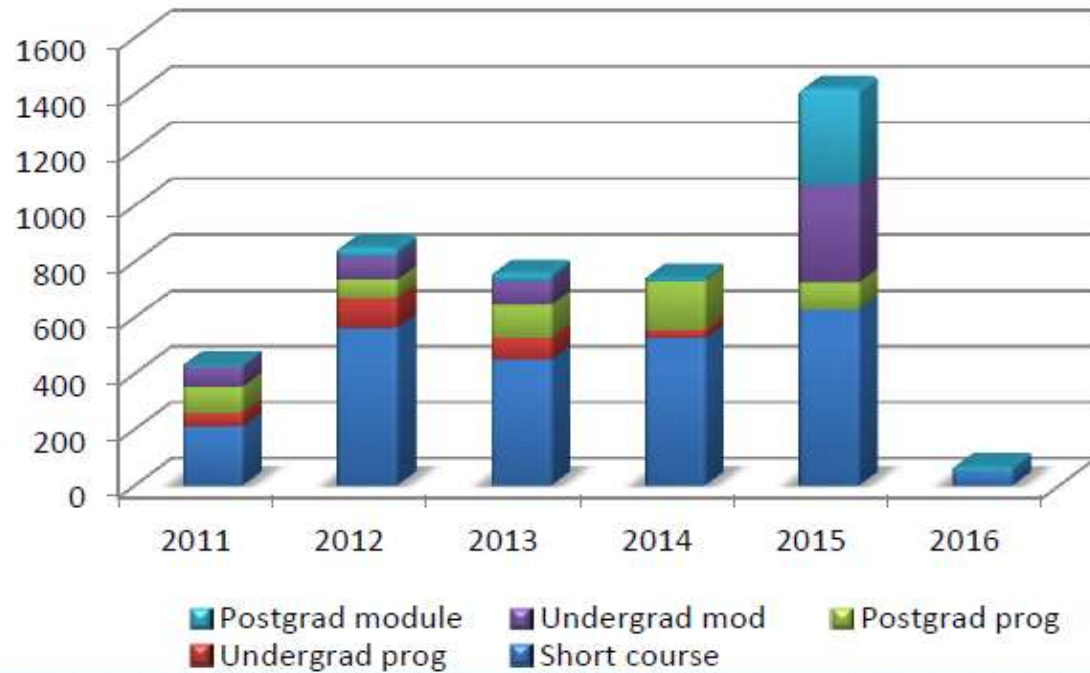

Agile, multi-scalar,
cross-disciplinary
partnership collectively
committed to advance
disaster risk
scholarship for Africa.
(est. 2006)

IRDR highlights (2011-2016)

21 new disaster risk-oriented academic progs and modules

Reached > 1,800 students - incubating capacity for **science + for practice**

Students registered for new academic progs

Where do MSc graduates go?

eg Bahir Dar U. Ethiopia: 76 grads. NGOs (54%), Parliament/political admins (21%), DRM Commission (14%), Universities (8%)

More Details...

1 810 students registered,
incl. 541 in pgrad progs..

306 honours, masters &
PhD students did indep.
disaster risk research

Tanà reached 608 students

BDU's MSc DRM & SD
registered 190 students

(+ 160 in BSc DRM prog)

Untapped value of
post-graduate research

212 disaster risk-related theses
completed!

Eg, La vulnérabilité à la
sécheresse en Androy:
conséquences socio-
économiques et
perceptions culturelles du
risque climatique. (Tanà)

Socio-economic impacts of
drought on pastoralists in
Dirre Woreda of Borena,
Oromia region. (BDU)

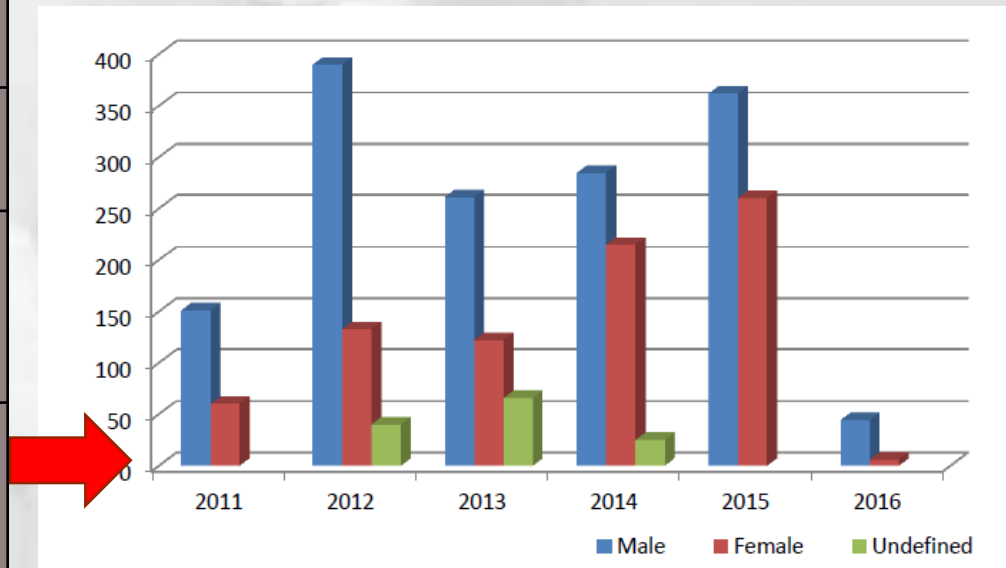

What ICoE REaL can gain...

- ? opportunities for staff and post-graduate student exchange.
- PhD capacity building... (especially 'sandwich programmes')
- Remote 'guest lecturing'
- Research collaboration
- Summer/Winter School collaboration

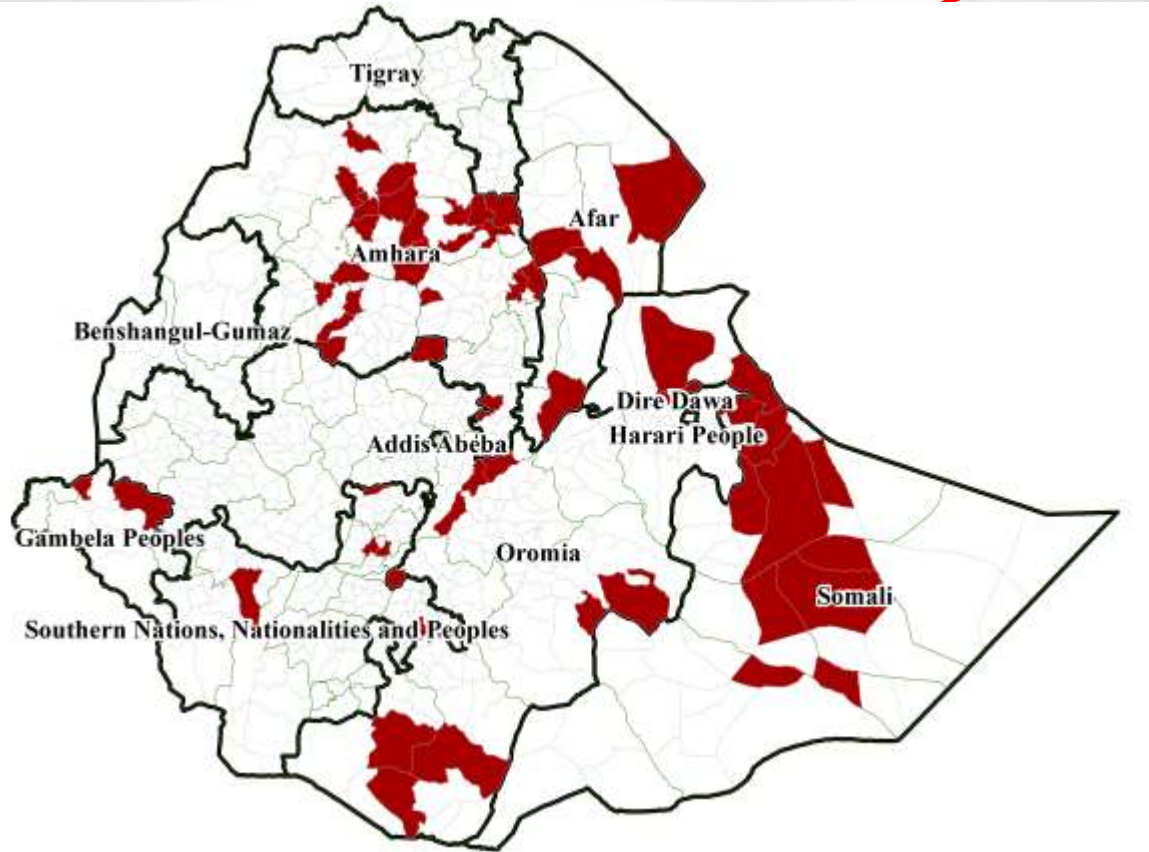

What can IRDR ICoE REaL Contribute?

- Mature continental architecture for integrated disaster risk capacity building for risk science & risk management (12 univs, 185 staff, 28 DR-related progs & modules).
- Expertise in DR curricula integration across multiple disciplines in resource-constrained contexts.
- Multi-scalar strategic navigation capability, and...

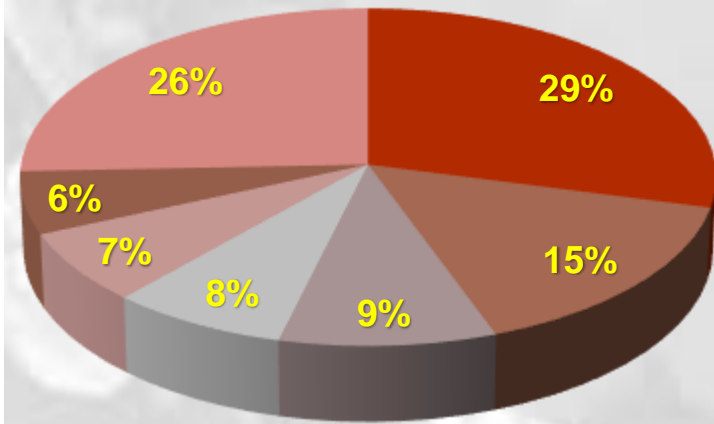

Short Courses	87
Participants	2,400
Women attending 2011	28%
Women attending 2015	41%

...Expertise in Integrated DR Research in Complex Environments (eg student research at BDU, Ethiopia)

120 Master thesis

- Livelihood/ Food Security
- Climate change
- Drought
- Flooding

...& a diverse port-folio of faculty-led DR research across Africa
